The League's pioneering focus on the interrelationships among air and water management issues forms the basis of efforts to ensure that government decision-making recognizes that environmental protection must be a seamless web. FORMATION OR PROMOTION OF FARMERS PRODUCER ORGANISATION

The organisation conducted the programme in SAMASTIPUR District of Bihar State. To improve the economic condition of the rural mass we need to evolve suitable programmes and the farming community must have a say during the process of technology generation. Blanket recommendation of technology even for different areas has sometimes proved to be futile to solve the problems of the farmers in a particular area. So there is a strong need of an individual system based research with the active participation of the farmers.

CONSUMER WELFARE AWARENES PROGRAMME

The organisation conducted the programme in SAMASTIPUR District of BIHAR State. EVERY INDIVIDUAL, whether rich or poor, is a Consumer from the moment of his birth till his death, because we are constantly in need of "Goods and Products" on the one hand & "services" on the other for our daily sustenance. It is therefore but proper that all of us should become aware of our rights as a consumer of goods and services. In fact, it is well known that the ordinary consumer is often exploited to such an extent that the market slogan was "buyers beware". However, slowly but surely the scenario is changing, to enable the consumer to turn back and, now say "sellers beware". While Consumer Awareness on the one hand and the need for consumer satisfaction on the other is a fairly well accepted and established fact in most western and other developed countries, this is taking its

55

roots in developing countries and more particularly in our own country only in the last few years. One significant reason for the spread of consumer awareness in our country has been the enactment of unique Legislation, the Consumer Protection Act in December 1986. The preamble to the Act states that it is intended to provide better protection of the interest of consumer and for the speedy settlement of disputes.
